

DR. SAUMEN MAJUMDAR

## Transforming Business Through “Quality of Earning (QoE)”

With constantly evolving business scenarios & the emergence of mass digitization, IoT, AI; The organizations now need to plan their strategies differently. The major challenge will be global competitiveness towards organization’s need to strive to achieve, sustain and improve which can only be achieved through delivery of Best-in-class products and services in a customized and personalized manner in sustainable way. Thus, strengthening the existing systems through enhanced competencies & capacities by using modern techniques will be the key success factors for excelling in the business.

**Business Excellence Model**
